 No. 4, p. 461, Wade  
*Teacher Evaluation in the Organizational Context: A Review of the Literature*,  
 No. 3, p. 285, Darling-Hammond, Wise, and Pease

## ANNOUNCING

### the Publication of

# *Tests in Print III*

Edited by James V. Mitchell, Jr.

*Tests in Print III* is an indispensable part of the *Mental Measurements Yearbooks* series. The principal criterion for the inclusion of a test in *Tests in Print III* is that the test be in print and commercially available for purchase. Thus *Tests in Print III* is a comprehensive bibliography of tests, with essential descriptive information, for all known tests in the English language. It is also the *only* volume that serves as an index to all in-print tests that have been reviewed in eight previous Yearbooks. It includes:

- 2672 commercially published tests, with carefully prepared descriptive information for each
- 12,170 references on specific tests—a reference collection available in no other reference work
- tests listed in alphabetical order for easy reference
- a directory of 565 test publishers with index to their tests
- a title index showing both in-print tests and tests out of print since previous listings
- a name index for test authors, reviewers, and authors of references
- a classified subject index for quickly locating tests in particular areas (e.g., achievement, personality)

For years under the editorship of Oscar K. Buros, and now under the editorship of James V. Mitchell, Jr., this widely acclaimed series continues its tradition with its latest publication, *Tests in Print III*.  
 September, 1983. xxxii, 714 pp. 7¼ x 10 in. ISBN 0-910674-52-3, \$85.00
